Modular Disc Vault

KVAULT-10

- ▶ **Blu-ray movie playback without touching a disc**
- ▶ **Automatic Blu-ray Disc import**
- ▶ **Capacity for 100 Blu-ray Discs**

The Modular Disc Vault imports and houses up to 100 Blu-ray Discs, making these movies available for instant playback. Kaleidescape requires a Blu-ray Disc to be present for playback, but the physical disc need not be read, accessed, or handled because the movie is copied to and played from a Kaleidescape server.

Simply connect the vault to an M300 Player or M500 Player with a USB cable and insert your discs. Up to 100 Blu-ray Discs can be imported automatically. To eject a disc, just select the movie on the onscreen display and choose Eject

Disc. If a Blu-ray Disc is removed, the system cannot play the movie until the disc is reinserted.

The Modular Disc Vault is a third-party carousel with firmware and other modifications by Kaleidescape. Several disc vaults can be added to a Kaleidescape System to accommodate large collections of Blu-ray Discs, but each vault must be connected to its own M-Class player. Any player in a system can play a Blu-ray movie housed in any disc vault.

KVAULT-10 Specifications

Dimensions

- 14.6 in. × 7.4 in. × 16.9 in. (W × H × D)
(37.1 cm × 18.7 cm × 42.9 cm)
- 5U mounted on rack shelf (RSH custom rack shelf available from Middle Atlantic Products)

Weight

- 6.3 lb (2.9 kg)
- 10 lb (4.6 kg) fully loaded

Power

- 100–240 V, 50–60 Hz universal input
- 7 W typical consumption
(7 W standby, 26 W max)
- External power supply included

Heat Output

- 44 BTU/hr (13 W) max

Connections

- USB 2.0 (type B) to M-Class player
- DC power

Disc Media

- Blu-ray Disc
- Standard 4.7 in. (12 cm) diameter discs

Capacity

- 100 Blu-ray Discs

Import Speed

- 1 Blu-ray Disc per hour

Certifications

- FCC Class B
- CE
- RoHS compliant

Limited Warranty

- 1 year (not extendable)
